

18th November 2017

In Corridonia (Italy) for the Kick-Off Meeting of FASST, an Erasmus+ Project

IAL FVG was in Corridonia, Italy on November 15th and 16th for the Kick-Off Meeting of “Formazione per Agricoltura Sociale e Sviluppo Territoriale” (FASST), a Project co-founded by the Erasmus Plus Programme of the European Commission, Key Action 2, Strategic Partnerships for Vocational Education and Training.

FASST is implemented by a Consortium of 9 partners from 5 European countries (Italy, Belgium, Bulgaria, Macedonia, Spain). FASST will develop free online and face-to-face training modules to foster Social Farming entrepreneurial initiatives in Europe.

The Consortium kick-started the Project implementation by planning activities of Intellectual Output 1 to build the FASST Platform and Virtual Community. Then, partners outlined the details of Intellectual Output 2 by discussing the common methodology for the Capacity Gap Assessment.

The Kick-Off Meeting also represented a great opportunity for partners to agree upon the project logo and the web domain, in order to foster project visibility and to launch dissemination activities.

IAL FVG , IT Expertise in VET, provides accuracy of training from the pedagogical perspective, ensuring coherence between objective of the training, expected learning outcome, structure and format of the training, delivery means and content.
